

DEPARTMENT OF HEALTH

NO. 5631

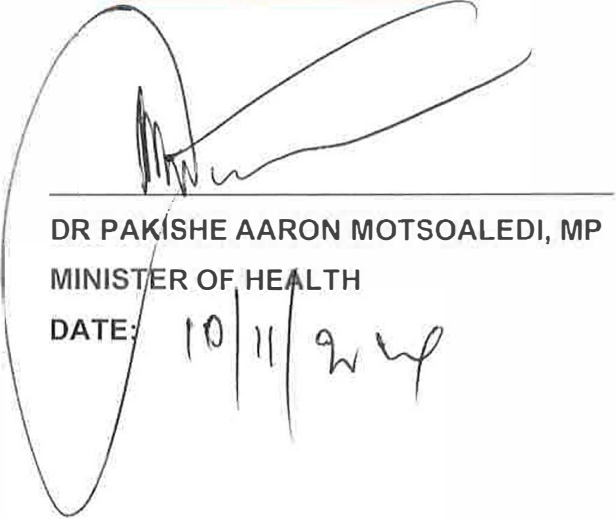

6 December 2024

DENTAL TECHNICIANS ACT, 1979 (ACT No.19 of 1979)

REGULATIONS REGARDING THE REGISTRATION AND TRAINING OF STUDENT
DENTAL TECHNICIANS AND STUDENT DENTAL TECHNOLOGISTS

The Minister of Health intends, under section 50(f) of the Dental Technicians Act, 1979 (Act No. 19 of 1979); on the recommendation of the South African Dental Technicians Council, make Regulations in the Schedule.

Interested persons are invited to submit any substantiated comments or representations on the proposed regulations to the Director-General of Health, Private Bag X828, Pretoria, 0001 for attention of the Director: Public [EntitiesGovernance;mihloti.mushwana@health.gov.za](mailto:EntitiesGovernance@mihloti.mushwana@health.gov.za) and paul.tsebe@health.gov.za, within three month of the date of publication of this Notice

DR PAKISHE AARON MOTSOLEDI, MP
MINISTER OF HEALTH

DATE: 10/11/2024

SCHEDULE

Definitions

1. In these regulations any expression to which a meaning has been assigned in the Act bear that meaning and unless the context indicates otherwise -

“approved institution” means a public higher education institution or private institution approved under the Higher Education Act, 1997 (Act No. 101 of 1997) and approved by the Council;

“education committee” means the committee established by the Council in terms of section 11 of the Act;

“education inspector” means an inspector referred to in Section 31 of the Act;

“employer” means the owner of a registered dental laboratory and who employs a registered dental technician or dental technologist;

“laboratory” means a dental laboratory registered in terms of section 30 of the Act;

“minimum requirements” means the annual determined requirements approved by the Council on the recommendation of a panel of the education committee of the Council;

“NQSF” means a National Qualifications Sub-Framework as contemplated in the National Qualifications Framework Act, 2008 (Act No. 67 of 2008);

“professional study” means study at an approved institution for any of the Council approved qualifications and aligned to the prevailing NQSF or any national structure that may replace it from time to time;

“senate” means the highest academic authority at a university of technology or a similar approved structure at a private institution approved under the Higher Education Act, 1997 (Act No. 101 of 1997); and

“the Act” means the Dental Technicians Act, (Act No. 19 of 1979).

Registration of student dental technician or student dental technologist

2. (1) An application for registration as a student dental technician or student dental technologist must be made to the Council within 90 days after the commencement of the applicant's study: provided that the Council may grant an extension of the period, as it

considers appropriate.

(2) An application for registration as a student dental technician or student dental technologist must be accompanied by-

- (a) a certified copy of a birth certificate or, if the applicant is unable to submit a birth certificate, alternative proof of age and correct names to the satisfaction of the registrar;
- (b) a certificate, which is equivalent to any grade 12 or equivalent educational qualification or a Recognition of Prior Learning certificate that regulates admission to a higher educational institution at the level of such specific qualification;
- (c) a declaration from the approved institution concerned indicating that the applicant has commenced studies in dental technology at that approved institution, and indicating the programme, the year of study for which the applicant is enrolled and the date on which he or she was so enrolled; and
- (d) a registration fee as determined by Council from time to time.

(3) A student dental technician or student dental technologist must not be registered by the Council if any of the documents referred to in sub regulation (2)(a),(b) or (c) have not been received as well as the payment referred to in sub regulation (2)(d) by 30 April of the applicable year of study.

(4) An approved institution may, on the grounds of previous education or training of a student dental technician or student dental technologist in dental technology, grant such a student exemption from studies for a specific study year or subjects or discipline, as long as the requirements of Council are upheld.

(5) A student dental technician or student dental technologist whose registration has expired but, who, within one year thereafter, resumes his or her professional study, must submit an application for re-registration to the Council within 14 days of the resumption of his or her professional study: Provided that the Council may extend the period of 14 days as it considers appropriate.

- (6) An application referred to in sub regulation (5) must be accompanied by-
- (a) A declaration from the university indicating that the applicant has resumed his or her professional study;
 - (b) the original registration certificate issued by the Council; and
 - (c) an amount payable as determined by the Council from time to time.

(7) Despite the provisions of subregulation (6), the name of a student dental technician or student dental technologist who interrupts his or her professional study for not more than one year and who applies in writing to the Council to continue his or her studies in the following year, must not be removed from the register of student dental technicians or student dental technologist during the said period.

(8) A person who applies for re-registration in terms of subregulation (5) but who is not able to submit his or her original certificate as required in terms of regulation 6 (b) may apply to the Council for a certified copy of his or her original registration certificate, for which a fee as determined by Council from time to time is payable.

(9) An application for re-registration as a student dental technician or student dental technologist must be accompanied by-

- (a) a certified copy of the relevant approved and recognised qualification in dental technology of the applicant concerned, or other proof from the approved institution that the applicant has complied with the requirements for the prerequisite qualification;
- (b) a declaration from the approved institution concerned indicating that the applicant has commenced studies towards the appropriate qualification at that approved institution, and the date on which he or she was so enrolled; and
- (c) a registration fee as determined by the Council from time to time.

(10) A student dental technician or student dental technologist must not be registered or re-registered by the Council if any of the documents referred to in subregulation (9)(a) or (b) as well as the payment referred to in subregulation (9)(c) have not been received by 30 April of the applicable year of study.

(11) Any application for registration or re-registration together with the applicable documents and fees, submitted after the period of 90 days referred to in sub regulation (1), or the period of 14 days referred to in sub regulation (5), as the case may be, must be subject to an additional registration fee as determined by the Council for each month or portion of a month that the application is overdue, subject to any extension that the Council may grant.

(12) No person must be registered or re-registered unless he or she has complied with sub regulations (2), (5), (8) or (11), where applicable.

(13) A onetime issued registration certificate in a format approved by the Council must be issued to each student dental technician or student dental technologist, as the case may be.

Advisory committee

3. (1) An approved institution must establish an advisory committee, the majority of members of which consists of registered dental technicians or dental technologists who are of good standing with the Council and one or more dentists registered under the Health Professions Act, 1974 (Act No. 56 of 1974), to practice that profession.

(2) The advisory committee must advise the approved institution concerned on any matter relating to the education of student dental technicians and student dental technologists, such as admission requirements, course structuring, research, prescribed training, academic and practical standards and the way in which work integrated learning can best be achieved.

Approval of training institutions: Procedure in applying for permission, approval, and evaluation of training

4. (1) An application by a training institution for permission to offer or provide any education or training which is intended to qualify a person to practice the profession of a dental technician or a dental technologist, must be submitted in writing by that institution to the Council at least six months prior to the commencement of such education or training.

(2) The application referred to in subregulation (1) must be accompanied by the applicant's capital expenditure budget; equipment maintenance plan; and future contingencies for applying new technologies; self-evaluation report based on the guidelines provided by the Council; and must meet the criteria determined by the Council from time to time by rule.

(3) A training institution must, in support of its application, indicate whether offering any of the approved qualifications at the approved institution has been approved by all other reporting structures both internal and external to the said approved institution, where applicable.

(4) On receipt of an application contemplated in subregulation (1), the Council may-

- (a) request from the applicant or any other person any further information that it deems necessary to enable it to consider the application; and
- (b) appoint an evaluation panel or another structure of Council, if deemed necessary and make the necessary arrangements including but not limited to scheduling the date of the evaluation with the educational institution.

(5) The evaluation panel referred to in subregulation (4) (b) must conduct the evaluation in accordance with the criteria determined by the Council and provide the Council with the evaluation report and its recommendations.

(6) The Council must consider the application together with the evaluation report and the recommendations of the evaluation panel and decide on whether or not to approve the training in question.

(7) The Council may, after considering the application together with the evaluation report and the evaluation panel's recommendations and before deciding on the application, direct the registrar to ask the educational institution to clarify specified aspects of the application or to provide information to enable the Council to make its own decision.

(8) The Council may, having considered the application, evaluation report, recommendations of the evaluation panel, and any clarification or additional information from

the educational institution, approve, conditionally approve, or refuse the approval of the training and educational institution concerned and if approved must approve the number of student dental technicians or student dental technologists who may be enrolled as first-year students.

(9) An approved institution must employ only dental technologists registered with the Council or dental technicians with that registration status in the education and training of student dental technicians or student dental technologists, and other suitably qualified persons approved by the Council such as clinicians or others for any ancillary subjects such as those related to professional ethics and clinical practice.

Accreditation

5. (1) The Council may, subject to regulation 4(8), approve that approved institution may offer four years qualification leading to registration as a dental technology or three years qualification leading to registration as dental technician.

- (2) If the application does not meet all the criteria determined by the Council, the Council may provisionally accredit the training concerned for a period of time less than the minimum years and subject to certain conditions that:-
- (a) The Council must re-evaluate the training referred to in regulation 4(1) after every period specified in subregulation (1);
 - (b) If Council has made recommendations after an evaluation visit, a training and educational institution must submit an annual report on a template provided by Council, on the progress of implementation of said recommendations;
 - (c) A training and educational institution must report to Council at any time during any period contemplated in subregulation (1) any changes to the following which may affect the training and education:
 - (i) Any change to the personnel in the programme;
 - (ii) Any change to the infrastructure required to carry out the programme;
 - (iii) Any change to the financial allocations to the programme;
 - (iv) Any change to the technology available to the programme; or

- (v) Any proposed changes to the curriculum and syllabus of the programme.
- (d) the Council may, at any time after accrediting training and before the expiry of the periods of accreditation contemplated in subregulation (1), direct that an accredited training and educational institution be re-evaluated, should it be in receipt of information to the effect that the accredited training and educational institution no longer meets the requirements prescribed by the Council, or as a result of information supplied under subregulation (2)(c).
- (3) The accreditation of the qualifications is valid until withdrawn by the Council as contemplated in regulation 6.
- (4) The provisional accreditation is valid for a period indicated on the accreditation certificate issued by the Registrar.

Withdrawal of accreditation

- 6. (1) The Council may withdraw the accreditation if:
 - (a) the training and the educational institution no longer meet the minimum requirements determined by the Council; and
 - (b) information is brought to the Council to the effect that such training and an educational institution no longer comply with the conditions of approval as may have been determined by the Council.
- (2) The Council must, prior to the withdrawal of the accreditation, afford an educational institution concerned 30 days within which to furnish the reasons why such training and an educational institution's approval should not be withdrawn.
- (3) The Council must consider the reasons furnished by an educational institution before withdrawing the approval of an educational institution.

(4) Should the Council, withdraw the accreditation, the Council must, in writing, inform such an educational institution and the students at such an educational institution of its decision accordingly.

(5) The Council may require a person who is in possession of a qualification from an educational institution whose accreditation has been withdrawn to undergo and pass the National Professional Registration, before considering such person for registration in terms of the Act.

Composition of the evaluation panel

7. (1) Subject to the approval of Council, the evaluation panel should comprise:

- (a) A member of Council as chairperson;
- (b) The head of programme or department of dental technology at one of the other Universities of Technology or a senior dental technology academic of such a university;
- (c) Any other persons the Council may wish to include in order to allow for expertise from the disciplines of fixed and removable prosthodontics and orthodontics;
- (d) a Council observer; and
- (e) Council secretariat.

(2) The Council must determine and publish, by rules, from time to time, fees payable to members of the evaluation panel for the evaluation of the training at the educational institution and for the preparation of the evaluation report for approval or re-approval contemplated in these regulations.

(3) The Registrar must pay members of the evaluation panel fees and disbursements due to the members of the evaluation panel on the submission, to the registrar, of the final evaluation report.

Information to be supplied by an approved institution

8. (1) An approved institution must, by the 15 April every year, submit a list to the Council indicating the full names of all-

- (a) student dental technicians or student dental technologists enrolled at such approved institution on 15 April of that year;
- (b) student dental technicians or student dental technologists who abandoned their studies during the preceding 12 months, and, in cases where students have discontinued their professional study, the date of such discontinuation and the reasons for this discontinuation;
- (c) student dental technicians or student dental technologists who temporarily abandoned their studies during the preceding 12 months, together with the reasons for such temporary abandonment and the date, where possible, on which such persons anticipate resuming their studies; and
- (d) student dental technicians or student dental technologists, who, after the temporary abandonment of their studies, resumed their studies during the preceding 12 months.

(2) Every approved institution must notify the Council within 30 days after a student dental technician or student dental technologist has been found guilty by such an approved institution of misconduct in terms of the rules and regulations of the approved institution concerned and must furnish the Council with full particulars of such conduct.

(3) If a student is in contravention of the statutes under the administration of the Council, such contravention must be reported to the registrar of the Council for decision and possible action.

Removal of names from register of student dental technicians or student dental technologists

9. The Registrar must remove the name of a student dental technician or student dental technologist from the register that is kept in terms of section 20 of the Act-

- (a) as soon as he or she has been registered as a dental technician or dental technologist or 30 days after the registrar receives notice of the name of such student in accordance with regulation 14; or
- (b) as soon as evidence has been submitted to the satisfaction of the registrar that the student dental technician or student dental technologist has abandoned his or her professional study in South Africa.

Minimum curriculum and duration for courses leading to registration as a dental technician

10 (1) (a) The period of professional study in dental technology must be from the date of registration as a student dental technician, at an approved institution until the date on which the qualification is awarded.

(b) The period referred to in paragraph (a) must consist of at least the minimum time prescribed for that qualification level as it appears on the NQSF, inclusive of both academic training at an approved institution and work integrated learning.

(c) A student dental technician may not be allowed to complete a three-year Diploma in Dental Technology in more than five years or an Advanced Diploma in more than two years.

(d) In the event where a student dental technician enrolls on the Extended Curriculum Programme, a further one year must be allowed over and above the time period contemplated in regulation (1) (c).

(2) All subjects must, from the first year of study, be aimed at training in dental technology and the professional development of a student dental technician.

(3) The syllabus for professional study for any of the Council approved qualifications at any of the NQSF levels must consist of systematic instruction and, where applicable, practical work, and must cover the following:

- (a) all aspects of modern dental technology that are benchmarked internationally;
- (b) dental materials science appropriate to the aspects referred to in paragraph (a) and underpinned by the appropriate applied and

- biosciences;
- (c) dental technology and other related legislation that impacts on the profession of dental technology practising as a dental technician;
- (d) professional conduct and bioethics; and
- (e) profession-specific and work-integrating learning, aimed at preparing students for the world of work in general, but focused on the profession of dental technology, which must enable student dental technicians to successfully participate as employees in a registered dental laboratory.

Minimum curriculum for courses leading to registration as a dental technologist

11. (1) (a) The period of professional study in dental technology must be from the date of registration as a student dental technologist, at an approved institution until the date on which the appropriate recognised qualification is awarded.

(b) The period referred to in paragraph (a) must consist of at least the minimum time prescribed for that qualification level as it appears on the NQSF, inclusive of both academic training at an approved institution and such work integrated learning as may be determined under subregulation (3) (f).

(c) A student dental technologist will not be allowed to complete a four-year Bachelor of Health Sciences degree in Dental Technology in more than six years or a Postgraduate Diploma in more than two years full time or four years part-time.

(d) In the event where a student dental technologist enrolls on the Extended Curriculum Programme, a further one year must be allowed over and above the time period contemplated in paragraph (b).

(2) All subjects must, from the first year of study, be aimed at training in dental technology and the professional development of a dental technologist.

(3) The syllabus for professional study for any of the Council approved qualifications at any of the NQSF levels must consist of systematic instruction and, where applicable, practical work, and must cover the following:

- (a) all aspects of modern dental technology that are benchmarked internationally;

- (b) dental materials science appropriate to the aspects referred to in paragraph (a) and underpinned by the appropriate applied and biosciences;
- (c) dental technology and other related legislation that impacts on the profession of dental technology practising as a dental technologist;
- (d) professional conduct and bioethics;
- (e) general dental laboratory management, business competence and business practice related subjects focused on the application in dental technology;
- (f) profession-specific and work-integrating learning, aimed at preparing students for the world of work in general, but focused on the profession of dental technology, which must enable student dental technologists to successfully participate as employees in a registered dental laboratory, and as employers, entrepreneurs or supervisors of dental laboratories; and
- (g) the ability to engage and conduct profession-directed research that must contribute to the development of the dental technology profession.

(4) For the purposes of this regulation, “**extended curriculum programme**” means learning activities at the lower end of the higher education band that are intended to enable students from disadvantaged educational backgrounds to acquire the academic foundation necessary for succeeding in higher education, and that must lead to a purposeful and structured set of learning outcomes that lead to an approved and recognised professional qualification.

Syllabus

12. (1) The curriculum and syllabus must be determined by each approved training institution and approved by the Council.

(2) The curriculum and syllabus contemplated in sub regulation (1) must contain all the aspects provided for in regulation 10 (3) where applicable to courses leading to registration as a dental technician or regulations 11 (3) where applicable to courses leading

to registration as a dental technologist.

Examinations

- 13** (1) An approved institution must-
- (a) evaluate the progress of a student dental technician or student dental technologist in respect of the aspects referred to in regulations 10 (3) or 11 (3) and conduct the examinations in those subjects in accordance with the rules framed by the senate of such approved institution and as approved by the Council; and
 - (b) at the end of the period contemplated in regulations 10 (1) or 11 (1) as the case may be, examine the student dental technician or student dental technologist, by means of a practical examination in dental technology in accordance with the rules determined by the senate of such approved institution and as approved by the Council, provided that such rules are not in contravention of the Act and these Regulations.

(2) A student dental technician or student dental technologist may receive recognition from the senate or from a similar structure with the same mandate, of an approved training institution, for a subject when he or she has passed the examination in such subject in accordance with these Regulations.

Completion of academic years of study

14 (1) An approved institution must, on or before 31 December every year, or at any other agreed date should the academic year be disrupted, furnish the Registrar in writing with the name of each student dental technician or student dental technologist at such approved institution, who has complied with the requirements for the appropriate, approved and recognised qualification.

- (2) The approved Institution must communicate to the Council all withheld qualifications.

Proficiency

15 (1) An approved institution must determine at what stage and for what period a student dental technician, where applicable, and student dental technologist must undergo work integrated learning in approved dental laboratories.

(2) For the purposes of subregulation (1) the Council and the approved institution must approve any dental laboratory referred to in subregulation by a process of evaluation as determined by Council from time to time, by rules.

(3) An approved institution must ensure that the proficiency acquired through work integrated learning and other profession specific practical work, together with academic training, is sufficient for a student dental technologist to be employed as a dental technician or dental technologist.

Qualification to practice the profession as dental technician or dental technologist

16 (1) An approved institution must award the appropriate qualification as approved by Council to a student dental technician or student dental technologist if the student has passed the examinations prescribed for that qualification and otherwise complied with the requirements determined by the senate of that institution for that qualification.

(2) The appropriate qualification as approved by Council and awarded by an approved institution maybe recognised by the Council as the qualification which entitles the holder thereof to register as a candidate dental technician or candidate dental technologist to enable them to find employment and to subsequently enter for the National Professional Registration Examination.

(3) The Council must publish by rules the commencement year in which all graduates in dental technology and technician must take and pass the National Professional Registration Examination in order to be registered as a dental technician or dental technologist.

(4) The Council must publish on its website the policy and guidelines for a National Professional Registration Examination for registration.

(5) A dental technician must be entitled to practice his or her profession in the capacity of an employee only.

(6) A dental technologist must be entitled to practice his or her profession in the capacity of an employee, a supervisor of a dental laboratory or an employer.

(7) For the purposes of these Regulations, the Council must continue to register as a dental technician the holder of the following qualifications:

- (a) the Professional Diploma in Dental Technology;
- (b) National Higher Diploma: Dental Technology;
- (c) the National Diploma in Dental Technology; or
- (d) any qualifications previously issued or recognised by the Council for this purpose, provided that Council has approved the standard of the examinations for such qualifications.

(8) For the purposes of these Regulations, the Council must continue to register as a dental technologist the holder of B.Tech. Dental Technology degree or Bachelor of Health Sciences: Dental Technology degree; or any qualifications previously issued or recognised by the Council for this purpose.

(9) For the purposes of these Regulations, the Council must register as a dental technician the holder of Diploma: Dental Technology.

Evaluation and Investigation into education and training at an approved institution

17. (1) An evaluation panel, on the instruction of the Council, may investigate any matter concerned with the education of such students, and must report to the Council on such examination or investigation.

(2) The evaluation panel must declare in its report whether or not the minimum requirements for education and training, as prescribed by the Council, and also set out in the required Self-Evaluation Report are being maintained.

(3) The evaluation panel must submit its report to the registrar within one month of the completion of the investigation.

Evaluation of final practical examination question paper, work models and examples of completed tasks

18 (1) For purposes of the exit-level practical examination for any of the Diplomas in Dental Technology and the Bachelor of Health Science in Dental Technology degree, the practical examination question paper, work models and examples of completed tasks must be approved by the Council in accordance with subregulations (2) and (3).

(2) An approved institution must send the following items to the registrar by courier at least three months prior to the examination:

- (a) A copy of the final practical examination paper;
- (b) work models;
- (c) examples of completed tasks;
- (d) a copy of the practical year syllabus; and
- (e) any other documentation required and prescribed as per the minimum requirement document for that specific academic year.

(3) The education inspectors must consider the items referred to in subregulations (1) and (2) and advise the Council in their report whether, in their assessment, the minimum requirements have been met.

(4) If the minimum requirements have not been met, the education inspectors must make recommendations for changes to Council.

(5) The education inspectors must submit their report and the items referred to in subregulation (3) to the registrar within one month of receipt and the registrar must submit the report to the education committee of the Council for consideration.

(6) The Registrar must inform the relevant department and Dean of an approved institution of the conclusion reached by the education committee and, where applicable, of the suggestions made by that committee.

(7) An approved institution whose items in subregulations (1) and (2) do not comply with the minimum standard must submit a new or revised practical examination question paper, together with work models and examples of completed tasks, to the registrar within one month of having received the report referred to in subregulations (4) and (5) and if still further changes are required, may have to revise their examination date.

(8) An approved institution which has to resubmit the work must reimburse Council for expenses incurred by the education inspectors and Council to assess the revised work.

(9) The education inspectors shall submit an amended report and the items referred to in subregulation (3) to the registrar within one month of receipt, stating in the report whether, in their opinion, the new or revised items comply with the minimum requirements.

(10) The registrar shall submit the amended report on the new or revised items to the education committee of the Council for consideration.

(11) If the education committee of the Council is of the opinion that the report referred to in subregulation (8) reveals that the minimum requirements are not being met, or that the approved institution failed to comply with the dates referred to in subregulation (2) the committee shall report to the Council accordingly and the Council may take such steps as it may deem necessary.

(12) The onus shall be on the approved institution or the Council, as the case may be, to provide proof that documents, models and examples have been dispatched.

Assessment of the final summative practical examinations at an approved institution

19 (1) In order to enable the Council to determine whether the minimum standard at an approved institution is being met and whether the evaluation is effective as a means of determining the competence of the students concerned, the Council may appoint two or more dental technicians or dental technologists as education inspectors to carry out investigations into such matters at approved institutions and to report to the Council thereon.

(2) The education inspectors shall attach any other evaluation reports, question papers, memoranda, work models, examples of completed tasks or any other documents or observations relevant to the report.

(3) The honorarium and allowance payable to the education inspectors for the performance of their functions must be determined by the Council from time to time by resolution.

(4) One or more education inspectors may be required by Council to be present at the final summative practical assessment of any or all of the dental technology specific subjects that have a compulsory practical component and which is reflective of the professional skills of the student dental technician or student dental technologist, and which is part of the appropriate, approved and recognised qualification conducted by an approved institution.

(a) The education inspectors must declare in their report whether in their opinion: the summative practical assessment was an effective and valid means of evaluating the students concerned; and

(b) the summative practical assessment was completed in a manner consistent with the minimum requirements for that year.

(5) For the purposes of sub regulation (4), the Council education inspectors must submit their report to the registrar within one month of the completion of the examination:-

(a) the registrar must submit the report to the education committee of the Council within two weeks which, if the report is lacking in any respect, may order that the Council

examiners submit an amended or additional report;

(b) the report, together with the amended or additional report must, if necessary, be submitted to the Dean of the Faculty of the approved institution concerned for comment, who must respond within two weeks of receipt of the report;

(c) the report and the response contemplated in paragraph (b), if any, must be submitted to Council at a special meeting convened for that purpose within two weeks.

(d) If Council is of the opinion that the results of the summative practical assessment, taken as a whole, do not at least reflect the minimum standard or that the conditions under which the assessment was conducted were unacceptable or if the results of the approved institution revealed irregularities or inconsistencies, as reflected in the reporting referred to in subregulation (5), the Council must take such steps against the approved institution as it may deem necessary.

(6) For the purposes of this regulation, “**final summative practical assessment**” means the practical assessment that is intended to assess the student's fitness for an approved purpose, at a given level, but specifically referring to those assessments at the end of a programme that would be presented to or considered by the Council for professional registration purposes.

Repeal

20 The Regulations published under Government Notice No. R 2248 of July 2022 are hereby repealed.

Short title

21 These regulations are called the Regulations Regarding the Registration and Training of Student Dental Technicians and Student Dental Technologists, 2024.
